FOR IMMEDIATE RELEASE

PAVEMENT REHABILITATION PROJECT CONTINUES ON STATE ROUTE 178 IN KERN COUNTY

The Department of Transportation (Caltrans) in cooperation with *Windsor Fuel Inc.* continues to implement a pavement rehabilitation project along State Route 178 in Kern County. Crews are currently performing striping operations on various ramps within the project limits from just west of Union Avenue to the Fairfax overcrossing.

Eastbound and Westbound State Route 178 between just west of Union Avenue to the Fairfax overcrossing, motorists will continue to encounter lane reductions and temporary ramp closures, today Monday, September 15th through Friday, September 19th, 2014 between the hours of 6:00 a.m. and 6:00 p.m. each day.

Commuters should pay close attention to construction signs in the area and watch for construction vehicles and personnel. Closures may continue for longer periods of time if necessary, due to delays caused by uncontrollable events that may occur during road construction procedures. Motorists are encouraged to avoid this area during project work hours or use alternate routes if possible.

Caltrans thanks businesses, commuters and residents for their patience during this improvement project.
